PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) — *Data Engineer*

Pune, India | **Dec 2024 – Aug 2025**

- Working on a client project for **Trane Technologies**, focusing on data pipelines, data transformation, and analytics workflows.
 - Designed and maintained scalable data pipelines to support advanced analytics and reporting for business insights.
 - Implemented ETL processes using tools like Apache Spark, Python, SQL, and AWS Glue.
 - Optimized and managed data storage solutions using AWS S3 and Redshift, ensuring data integrity and quality.
 - Automated workflows using AWS Lambda and monitored processes with CloudWatch.
 - Collaborated with analytics teams to deliver actionable insights using Tableau dashboards.
- Tech Stack: Python, SQL, Apache Spark, AWS (Glue, S3, Redshift, Lambda, CloudWatch), Tableau, Snowflake.

Tata Consultancy Services (TCS) — *DevOps Engineer*

Pune, India | **May 2024 – Dec 2024**

- Worked on a **Mastercard project**, supporting CI/CD pipelines and deployment automation.
 - Developed and maintained CI/CD pipelines using Jenkins and GitLab to streamline software deployments.
 - Managed and automated cloud infrastructure on AWS using Terraform for Infrastructure as Code (IaC).
 - Containerized applications using Docker and deployed them on scalable environments.
 - Configured and utilized monitoring tools like Grafana and Kibana to ensure system uptime and resource optimization.
- Automated configuration management tasks using Ansible for consistent environment provisioning.
- Tech Stack: Jenkins, GitLab, AWS (EC2, S3, CloudFormation), Terraform, Docker, Ansible, Grafana, Kibana.

Sagveek Technologies — *Python Developer Intern*

Pune, India | **Internship**

- Developed Python-based backend modules and automation scripts for internal applications.
- Worked with databases and APIs to support data processing and integration tasks.
- Followed clean coding practices and contributed to documentation and testing.

Oasis Infobyte — *Web Development & Design Intern*

Remote | **Internship**

- Built responsive web pages using **HTML5, CSS3, and MySQL**.
- Worked with content management systems and basic backend integration.
- Improved UI usability and cross-browser compatibility.

PROJECTS

IntellectSoft: Intelligence for Physically Disabled People (*Final Year Project*)

- Designed an AI-based assistive system to improve accessibility for physically disabled users.
- Implemented **voice recognition and gesture-based controls** using Python and AI/ML frameworks.
- Focused on real-world usability, accessibility, and human-computer interaction principles.
- Demonstrated the system as a practical assistive technology solution.

Medical Store Automation System (*Diploma Project*)

- Built a **Java-based desktop application** to automate medical store operations.
- Implemented modules for inventory management, billing, and order tracking.
- Used **Java, MySQL, JDBC, and Swing**, improving operational efficiency and accuracy.

RAG-Based Chatbot for Galway Tourism (*Academic Project*)

- Developed a retrieval-augmented generation chatbot for Galway tourism information.
- Created structured datasets (JSON & CSV) covering attractions, transport, food, and events.
- Focused on information retrieval, document chunking, and response accuracy.

EDUCATION

University of Galway — Galway, Ireland

Master's Degree (Fall Intake 2025)

Savitribai Phule Pune University — Pune, India

Bachelor of Engineering in Computer Engineering

CGPA: **9.14 (Distinction)** | Honors in **Artificial Intelligence & Machine Learning**

May 2023

AISSMS Polytechnic — Pune, India

Diploma in Computer Engineering

CGPA: **86.86 (Distinction)**

May 2020
